EDUCATION

Certification

Front End Development

Thinkful

📅 2020 - 2021

📍 Seattle, WA

SKILLS

- JavaScript
- HTML
- CSS
- React
- Node.js
- Mocha/Chai
- Jest
- GIT

WORK EXPERIENCE

Junior Front-End Developer

HelloFresh

📅 June 2021 - current

📍 Remote

- Set up testing framework for team project using Mocha and Chai to test the Node API. This decreased the amount of bugs pre-deployment by over 70%.
- Worked in an agile environment with weekly stand-ups, kept track of user stories/bugs in GitHub projects, and conducted 2 hours of sprint planning and sprint retrospectives per week. This process allowed production to **increase by 45% while decreasing overall time invested by 20%**.
- Participated in pair programmed with 3 engineers, and reviewed team's code to provide additional perspective and catch previously missed errors.
- Tested React components using Jest.

Front-End Developer Apprenticeship

Blend

📅 January 2021 - June 2021

📍 Remote

- Assisted in building beautiful user interfaces for clients without compromising functionality for aesthetics.
- Implemented newly-learned front-end object-oriented programming to develop client server systems.
- Wrote unit tests in Jest. This made products 100% bug free.
- Learned and applied Agile methodologies and principles.

PROJECTS

Sickle To 'Em

Designer, Developer

📅 2021 - current

- Built a full-stack web app to allow Sickle Cell Anemia patients to keep track of 15+ medications needed for treatment.
- Used React to allow users to instantaneously update the medication list interface without reloading.
- Built custom JavaScript timer linked to Twilio API to send text reminders 5 minutes prior to take certain medications at specific times of day.
- Continued development by adding 12 physical exercise guides in accordance with physician recommendations for SCA patients.
